## Developer, Technology & Network Support

April 2013 - August 2015

Anfield Information, Inc.

- Supported an overhaul of the company's existing infrastructure, installing new switches, access points, NAS and rack equipment to replace aging equipment, and virtualizing the server environment with VMs provisioned in vSphere
- Maintained employee access to domain resources through Office 365, Exchange 2010 and Active Directory administration
- Configured DHCP/DNS, GPOs, WSUS, and other intranet services to provide automation of updates, integration with Office 365, and reimaging via PXE
- Replaced redundant and outdated third-party software with built-in roles to provide web server, FTP, and remote access through RDP/VPN
- Managed company's VPS to serve sites for internal initiatives and client engagements
- Prepared workstations for staff and notebooks for contingent employees of enterprise clients, providing comprehensive support and troubleshooting for any hardware or software issues, including personal BYOD devices
- Developed multimedia content and SCORM-conformant courses designed to support enterprise internal training and sales enablement

## Technology Specialist

October 2012 - April 2013

Chapel Hill-Carrboro City Schools

- First point of end-user contact for technology infrastructure totaling 1,000 workstations
- Local network configuration of switches, wireless devices, thin clients, and virtualized apps
- Site-specific administration of Active Directory accounts, permissions, and Group Policy Objects
- Rapid network deployment of district-standardized images

## Website and Newsletter Maintenance

May 2011 - March 2013

The Global Province, William Dunk Partners, Inc.

- Created cross-client e-mail newsletters after formatting/proofing written content and graphic assets, to be sent out biweekly
- Maintenance of the ~4k subscriber mailing list and its Lyris server
- Continual tuning of SEO items via Google Analytics, ensuring site compatibility, and resolving any issues with service providers

## Assistant Web Developer

May 2009 - December 2009

Duke University, Alumni & Development Communications

- Created and maintained content for the <http://giving.duke.edu> domain
- Created monthly e-mail newsletters sent out to faculty and alumni, and built a landing page for a new e-mail fundraising campaign
- Researched best practices and emerging web trends to present to project leaders
- Redesigned web sites for the Corporate and Foundation Relations and Duke Annual Fund departments

### < EDUCATION >

## University of North Carolina at Asheville

September 2004 - May 2008

Bachelor of Arts, Multimedia Arts and Sciences
